

CHETAN PATTAN

Mumbai | 9969193562 / 8850653487 | chetanpattan01@gmail.com

Portfolio: <https://chetanpattan.github.io/Portfolio/>

PROFESSIONAL SUMMARY

Software Engineer with hands-on experience in .NET, ASP.NET Core Web API, ASP.NET MVC, Laravel, and enterprise banking applications. Specialized in Loan Origination Systems (LOS) and Loan Management Systems (LMS) with extensive third-party API integrations. Skilled in building secure and scalable applications using JWT authentication, RSA encryption, schedulers, webhooks, and automation services. Experienced in delivering high-performance solutions within banking and financial domains using Microsoft technologies.

EDUCATION

Master of Science in Computer Science | Ramnarain Ruia Autonomous College, Mumbai | 2021 – 2023

Bachelor of Science in Computer Science | Ramniranjan Jhunjhunwala College, Mumbai | 2018 – 2021

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, Bootstrap, jQuery, AJAX
- **Backend:** C#, ASP.NET, ASP.NET MVC, ASP.NET Core MVC, ASP.NET Web Forms, Web API, Laravel
- **Database:** MS SQL Server, MySQL, Stored Procedures, Functions
- **Frameworks & ORM:** Entity Framework, ADO.NET
- **Security:** JWT Authentication, RSA Encryption, Token-based Authorization, IP Whitelisting
- **Tools:** Git, IIS, Visual Studio, Visual Studio Code, Postman

PROFESSIONAL EXPERIENCE

Krtiva Technologies Pvt. Ltd. | Software Engineer – .NET Developer | May 2024 – Present

Client: SBI Factors Private Limited – Subsidiary of State Bank of India

- Developing and integrating enterprise-level Loan Origination System (LOS) and Loan Management System (LMS) applications for banking solutions.
- Integrated third-party APIs including Karza, Accumn, CRIF, Cygnet, Doqfy, YONO Banking, and SBI Payment APIs.
- Developed secure .NET 6/9 Web APIs using JWT authentication, RSA encryption, and token-based authorization mechanisms.
- Automated recurring operational tasks using .NET 9 schedulers, reducing manual intervention significantly.
- Developed and maintained secure webhook services for real-time data exchange and processing with third-party platforms including M1xchange, InvoiceMart, and RXIL.
- Worked on backend development in .NET Core/.NET Core Web API and Laravel.
- Coordinated directly with third-party vendors to manage Change Requests (CRs), oversee development deliverables, and issue technical sign-offs for production deployments.

- Collaborated with infrastructure and networking teams to configure secure API communication channels through IP whitelisting for third-party integrations in UAT and Production environments.
- Assisted in implementing network-level security controls to restrict API and webhook access exclusively to trusted whitelisted public IPs.
- Hands-on exposure to IIS-based IP restriction configuration and secure deployment coordination for enterprise-grade banking applications.
- Ensured system scalability, maintainability, and optimized production-level banking applications.

Digital Edge Technologies Pvt. Ltd. | Junior Software Developer | October 2023 – March 2024

- Worked on development and maintenance of E-commerce and ERP applications using ASP.NET MVC and ASP.NET Web Forms.
- Developed backend business logic, APIs, and database operations using C#, ADO.NET, and MS SQL Server.
- Implemented frontend functionalities using HTML, CSS, JavaScript, Bootstrap, jQuery, and AJAX.
- Collaborated directly with clients to understand requirements and provide technical solutions.
- Enhanced application performance and implemented feature improvements through optimized coding practices.

IGS Recruiting Solution | ASP.NET Developer Intern | January 2023 – June 2023

- Developed frontend and backend modules using ASP.NET technologies.
- Worked with cross-functional teams for requirement gathering and project documentation.
- Gained practical exposure to real-world software development lifecycle and deployment workflows.

KEY HIGHLIGHTS

- Experience working in banking and fintech domain applications.
- Hands-on expertise in secure API integrations and enterprise-grade solutions.
- Strong understanding of authentication, encryption, automation systems, and IP whitelisting concepts.
- Experience in handling production support, enhancements, and scalable deployments.
- Comfortable working in client-facing and stakeholder coordination roles.
